WELCOME TO THE BIBLIOTHEKSSERVICE-ZENTRUM BADEN-WÜRTTEMBERG!

The Bibliotheksservice-Zentrum Baden-Württemberg (BSZ) (library service centre Baden-Wuerttemberg) is an IT-service provider for academic and public libraries, archives, and museums; it offers databases, portals, support, hosting, and other services.

The BSZ is a facility in the business area of the Ministry of Science, Research and Art (Ministerium für Wissenschaft, Forschung und Kunst) of Baden-Württemberg in the legal form of a dependent public agency, headquartered in Constance. It was founded in Constance in 1996, resulting from a merger of the Südwestdeutscher Bibliotheksverbund, the central catalogue of Baden-Württemberg and the development group for an integrated library management system (LMS). Further tasks that were included in the bylaws are support for museums and archives and development of internet-supported services.

The BSZ has four departments:

Tasks and Services

Three departments:

- SWB - Union Catalog (Südwestdeutscher Bibliotheksverbund since 1985): organisation and hosting, daily updates for local OPACs, bibliographies etc.; online-interlibrary loan
- Library systems (since 1996): migration, support and hosting: aDIS (aStec, Germany) / Koha (Open Source System)
- Services for museums and archives (since 2000): digital catalogs, processing and management; digital library (since 2002): long term preservation, electronic repositories, virtual reference desk, portals

BSZ is one of the leading service providers in Germany

SWB - Union Catalog

- 1200 member libraries mainly in Baden-Württemberg, Saarland, Saxony; 100 libraries of the Goethe-Institut, some special libraries in Germany, Switzerland etc.
- 20 million titles: books, periodicals, articles electronic media, CDs, DVDs etc.
- 55 million holdings

SWB-Software: PICA/OCLC

Library Centres/Union Catalogs in Germany

Strategic Partnership BSZ-GBV

They are going to cooperate in the following fields:

- Common Customization of the Software PICA/OCLC with the objective of merging both centres
- Standardized cataloging and the same application rules in both centres
- Improvement of several services: integration of E-Books, cooperation and exchange of Classification, metadata etc.
- Cooperation in the fields of repositories, object servers

Welcome to SWB Online-Katalog

This bibliographic database references all kinds of media of more than 1200 libraries in Baden-Wuerttemberg, Saxony, Saarland, and Rhineland-Palatinate. It contains 57.5 million holding records for about 17.5 million titles of mainly scientific literature. These comprise 1.7 million holding records of 514.000 journals.

The catalogue is based on a OCLC PICA PSI-database and was created using data from the SWB cataloguing database as of 19/12/2006. It will be updated online.

Other catalogues (special materials and bibliographies) based on the SWB cataloguing database:

BSZ: Support and hosting of Koha: 15 Libraries, 6 in planning stage

- **Integrated Library System ILS**
Cataloging, Circulation OPAC, Serials, Acquisition, Statistics
- **Open Source (GPL)**
Linux, Apache, MySQL, Perl + Zebra (Search engine)
- **Completely web-based, standardized interfaces and formats**

Koha worldwide

- Over 2.600 Libraries worldwide use Koha
- 3 Russian libraries

Link: http://wiki.koha-community.org/wiki/KohaUsers/Europe#table_row_18

Support of two other local ILS

- BSZ supports 54 college and special libraries with aDIS, a German library system
- BSZ is going to support ALMA, ExLibris, for several college libraries in the first step

Research Discovery Service (RDS)

- BSZ One Stop Search (BOSS) is a RDS developed by BSZ for searching and acquisition for SWB member libraries
- One Stop Search: It contains metadata of the local OPAC and of the SWB-Union Catalog and a broad collection of articles in one surface
- Integrated ordering, Interlibrary loan etc.

Open source repositories: OPUS, DSpace

- Electronic repositories are obligatory for universities and colleges to publish theses and research papers in open access
- Repositories are used for university bibliographies etc.
- BSZ supports and hosts repositories in more than 40 libraries and museums in Germany, Austria and Switzerland.

Services for museums and archives

- Museums and archives catalog and process their objects and documents by means of an customized software, Joanneum Research Graz.
- BSZ promotes standardized classification in that field
- Project: Archiving digital photos for internal processing
- Project: Media for children, Hochschule d. Medien
- BSZ developed digital catalogs for internet presentation

BSZ is the service provider for about 20 museums and archives

Digital catalog of a museum

The screenshot displays the digital catalog interface for the Badisches Landesmuseum Karlsruhe. At the top, the museum's logo and name are visible. Below the header, there is a navigation bar with links for 'Museum', 'Besucherinfo', 'Recherche', 'Service', 'Förderer', and 'Presse'. A search bar is located on the right side of the header. The main content area is titled 'Digitaler Katalog' and features a grid of museum objects. On the left, there is a vertical navigation menu with categories such as 'Antike', 'Kunst- und Kulturgeschichte', 'Alltagskultur', 'Angewandte Kunst seit 1900', 'Außereuropäische Kulturen', 'Brauchtum und Religion', 'Fotografie, Film, AV-Medien', 'Gemälde', 'Glas', 'Glasgemälde', 'Graphik', 'Keramik', 'Kunstkammer-Objekte', 'Metall', 'Möbel', 'Musik', and 'Schriften'. The 'Glas' category is currently selected. The main grid shows nine glass objects, each with a small image and a caption below it. On the right side, there is a search sidebar with a 'Stichwortsuche:' field, a dropdown for 'Ansichten nach: Objektbezeichnung', and a list of search results under 'Auswahl:'. The search results include 'Deckelpokal', 'Deckenleuchte', 'Glas', 'Kelchglas', 'Musikinstrument', 'Pokal', 'Tafelservice', 'Tischleuchte', 'Vase', and 'Wappenglas'.

Long-term preservation

BSZ developed an electronic archive für several projects, for instance:

- Digital catalog of historic periodicals Bodensee (350 000 p.)
- Online archives of electronic media published in Baden-Württemberg (BOA) and in Saarland (Saardok)
- Harvesting and archiving websites of universities and cities, regions etc.
- Digital reading room: a German-French cooperation

BSZ additional services

- InfoDesk Pro: virtual reference desk: question and answer for users via mail; user feedback; internal processing etc.
- Bibnetz: portals for public libraries in Germany and Switzerland (Elektra/OCLC)
- BAM: portal of libraries, archives and museums
It offers over 60 million of media, objects and documents from all over Germany

www.bam-portal.de

The screenshot shows the BAM portal interface. At the top left is the BAM logo. To its right are four small images: a library aisle, a collection of red-tinted circular objects, a golden mask, and an architectural drawing. On the far right is a navigation menu with links: Start, Über uns / About us, FAQ, Kontakt / Teilnahme, and Impressum.

The main content area features a search bar with the query "St. Petersburg". Below the search bar are options for "Einfache Suche", "Erweiterte Suche", "Trefferliste", "Merkliste", and "Suchhistorie". The search results show 608 hits. The left sidebar contains filters for "Quellen (20.365)", "Bibliotheksgut (17.826)", "Andere Materialien (1.224)", "Archivalien (707)", and "Museumsobjekte (608)". Below this is a "Digitaler Inhalt" section with "Bild (294)" and "Alles (44)".

The search results list three items:

- M Nikolai-Brücke über die Neva, St. Petersburg**
