Library Lab

Research data management

Researchers move from *analogue* to *digital* methods

Library Lab

→ °2014-2015

Data management support

⟹°2015

Research data management

Research projects with a digital component:

→ Technical aspects: who can I go to for advice?

→ Very little attention for long term planning

= Consequences for **reusability**, **accessibility & preservation** of digital research output

Research data management

1) Streamlining research workflows

→ Connecting departments & services

1) Awareness & advice

→ Information sessions, help with creating a data management plan & project planning

1) Training

→ Library Lab

Library Lab

Workshops

→ **Data cleaning**

OpenRefine

→ **Research tools**

BRAT, ManuscriptDesk,
CENDARI

→ **Programming**

command line, Python, R

Lectures

→ **Digital collections**

UGent Open Access,
KBResearchLab

→ **Project showcases**

Faculty Library of
Arts & Philosophy
