 Libraries all over the University are holding an archival copy for most print periodicals.

New
 To facilitate the usage of the print periodicals in closed shelving, the library can provide UGent students and staff with a pdf of any article from these holdings. If you supply the correct article reference (author and title) and the page numbers in the online form, we will locate the volume. You'll receive our email with hyperlink as soon as we have been able to process your request.

Of course, you can still request a consultation in the library, of one or more issues/volumes, up to a full year of a print periodical in closed shelving. You might also find recent issues readily available in libraries with open stacks.

Print available from 1967-2003; 2007-2011
