# History of Finnish Public Library

- Long and strong!
- 1700th and 1800th century: reading circles set up small collections of books (paid)
- 1794 first public library in Vaasa, on the west coast of Finland
- 1900th century: educated people, students, labor movement and later other communities set up small collections of books for common people (free of charge)
- Since 1921 subsidy
- 1928 the first Library Act: public library got basic status, essential part of Finnish education system, free of charge for all people
- 1961, 1998, **2017** further Library Acts: every municipality is responsible for organizing library operations in its own area + active citizenship, diversity, multiculturalism
- Constitution law 2000: human rights

# Codes and guidelines

- Ministry of Education and Culture
- Regional State Administrative Agencies (Aluehallintokeskus)
- Association of Finnish Local and Regional Authorities (Kuntaliitto)
- Library Association (Kirjastoseura): international co-operation
- **Council for Public Libraries: The Way Forward for Public Libraries 2016-2020**

# Values of Finnish Public Library

\* Reflect human rights \*

- Equality
- Responsibility
- Sense of community
- Courage
- Freedom of speech

# What should we do? (from the strategy 2016-2020)

- \* *Keep libraries free of charge*
- \* *Keep different kinds of libraries alive (branch, mobile, self-service, patient, school..)*
- \* *Ensure that library is a safe environment for different social, cultural and age groups*
- \* *Choose reliable and quality material*
- \* *Highlight alternative materials*
- \* *Provide access to e-collections*
- \* *Provide actively interlibrary loan service and group visits / user trainings (electronic reading skills = civic skills!)*
- \* *Utilize and provide national (on-line) services →*
- \* *Provide space for participation and everything that is legal*
- \* *Bring citizens to participate in planning and producing services*
- \* *Organize events together with partners*
- \* *Introduce and take library services outside the library space and on-line*
- \* *Be active and open-minded to experiment new services, modern technology and utilize ones and other experts´ all know-how*

# Challenges (from the strategy 2016-2020)

- *Fewer citizens are interested in longer texts: Literacy is getting weaker*
- *English as a preferred language in media*
- *A lot of material is published, not easy to recognize quality material*
- *All in all digitalization is very challenging for many people (public services online!)*
  
- *Weak economic situation in municipalities → inadequate resources and education of library staff*
- *Number of municipalities decrease → population and services centralize in (big) cities*
- *Loneliness and gap between different social groups increases*

# Co-operation

- with other branches in municipality : citizens can use other municipal services in library space / in Joeli: cultural services moved to Joeli + project with social services
- with local schools and other academies: concerts with music academy, art exhibitions with art school, annual happening for children with UEF students  
<https://www.thinglink.com/video/917855651315580931> (virtual library by pupils)
- with different associations: literary and cultural evenings with "friendship societies", health and information evenings with health organizations (heart, back, cancer)
- with commercial companies?
- Joint-use libraries: Lumme libraries in Savo region + KOHA software →

# Case: Lumme-libraries

- Joint-use library in Savo region since 2015
- *lumme* ' water lily'
- 29 libraries
- Part of Koha-family!
- One database since 2017, one library card is coming
- Libraries are independent but co-operation is close
- The same fees and reservation queues
- Material transport twice a week by post
- Co-operation in for example cataloguing and circulating know-how (book talk)

# Case: KOHA

- The first free and open-source Integrated Library System: <https://koha-community.org/>
- Developed in New Zealand, for maori society since 2000 (*koha* 'present')
- Worldwide project, gone through several up-dates, the development goes on
- In Finland 6 joint-use libraries, over 100 libraries use Koha
  
- management by Koha-Suomi Inc.
- \* Owned by municipalities
- \* Non-profit principle
- \* 3 system developers + managing director [virpi.launonen@mikkeli.fi](mailto:virpi.launonen@mikkeli.fi) + product manager
- \* Small organization, no office
